Our school

A centre of excellence

1 CAVILAM - Alliance française is a private institute of higher education specialising in immersion-based French language teaching.

Experience
the adventure
of French

Founded in 1964

CAVILAM (Centre d'Approches Vivantes des Langues et des Médias)

was established by the municipality of Vichy and the universities of Clermont-Ferrand.

In 2012, it joined the international network of the Alliance française, becoming **CAVILAM - Alliance française**.

Setting a global standard

The institute has gained an international reputation for its pedagogical innovation.

Each year it plays host to nearly **4,000 foreign students from over 110 nationalities**.

Our mission is French language teaching.

We offer:

- intensive immersion-based French language teaching for adults
- training programmes for teachers of French as a foreign language
- "Sports and Language" summer courses for younger children
- language study trips for school groups
- preparation for official tests and certifications in French proficiency (DELF/DALF, TCF, etc.)
- "Language and Leisure" courses that combine French language teaching with golf, spa therapy or French cuisine.

Located in a superb setting at the foot of the splendid Parc des Célestins on the banks of the Allier river, CAVILAM - Alliance française offers high-quality teaching to students and trainees in the comfort and elegance of a modern facility spanning 9,000 square meters and equipped with exceptional technological resources.

The institute partners on a regular basis with France's Ministry of Foreign and European Affairs, the Institut Français, the Organisation internationale de la Francophonie, French cultural services abroad and several media outlets including TV5MONDE, Radio France Internationale and Canal Académie.

French as a foreign language teaching award

In 2008 and 2012, the institute was awarded the official "Qualité FLE" distinction by France's education authorities, receiving the highest score on every criterion audited (hospitality, facilities, teachers, training and administration).

Our values and 2 teaching methods

We aim to provide a knowledge of French and an understanding of French society.

Language learning takes place both in and out of the classroom and our foreign students are quickly integrated into the life of the city.

Upon their arrival, students are given a language test to ensure they are placed in the class best suited to their skill level and objectives. The levels of instruction and course content are consistent with the Common European Framework of Reference.

*We want you to share
in our values:
excellence, teaching innovation
and hospitality*

Our teaching draws on the latest methodological innovations as part of a communicative, action-oriented approach. Each class is structured around three key areas:

- intensive learning through a variety of activities
- techniques to promote the acquisition of communication skills
- rewarding intercultural exchanges.

The teaching staff takes into account each student's individual learning pace and conducts a weekly review of the student's progress.

Our courses are monitored for their content by the universities of Clermont-Ferrand. At the end of the course, all students receive two official documents:

- a certificate of attendance, indicating the student's class performance and participation
- a certificate of proficiency, jointly signed by CAVILAM - Alliance française and Blaise Pascal University, Clermont-Ferrand.

Vichy and the Auvergne region

Vichy

Located in the heart of France, Vichy is an ideal city for discovering the French way of life in an authentic, picturesque region. It is a perfect starting point for excursions into Auvergne and throughout France.

City of art

Vichy's opera house is a masterpiece of Art Nouveau. The city's thermal baths reminiscent of the Far East, Napoleon III-era chalets, impressive homes, shops and covered markets make Vichy a unique and surprising city. Its expansive parks - true botanical gardens - are perfect for long, leisurely walks.

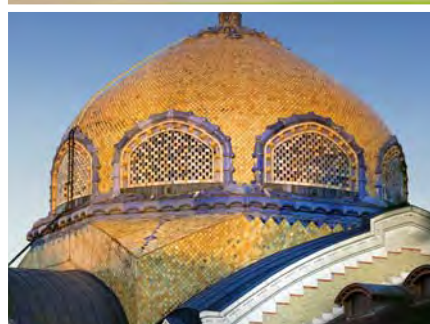

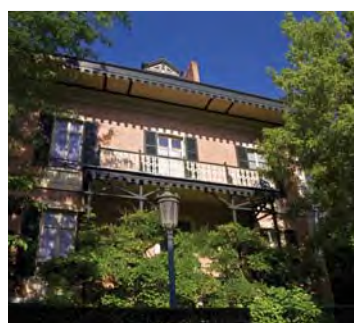

City of history

Vichy has been known for its thermal baths since Roman times.

During the 19th century, Napoleon III and Empress Eugénie popularised spa culture, making Vichy synonymous with health and beauty. During the Second World War, the government of Marshal Pétain chose Vichy as the French capital. After the war, the city enjoyed a renaissance thanks to health tourism and the cosmetics industry. Today, the Vichy brand name is known worldwide.

City of sport

Vichy and its surroundings boast exceptional sporting facilities: an aquatics centre, golf courses, a racetrack, tennis courts and a multi-sport recreational centre. The city's man-made lake host numerous international competitions.

At CAVILAM - Alliance française you enjoy a high quality of life in a friendly, serene environment perfect for learning French. Vichy provides an unmatched setting for making your language stay a success.
