AN ENCOUNTER IS ALWAYS THE  
STARTING POINT OF A NEW STORY...

Do you work in an international environment?

Are cultural differences getting in the way of your success?

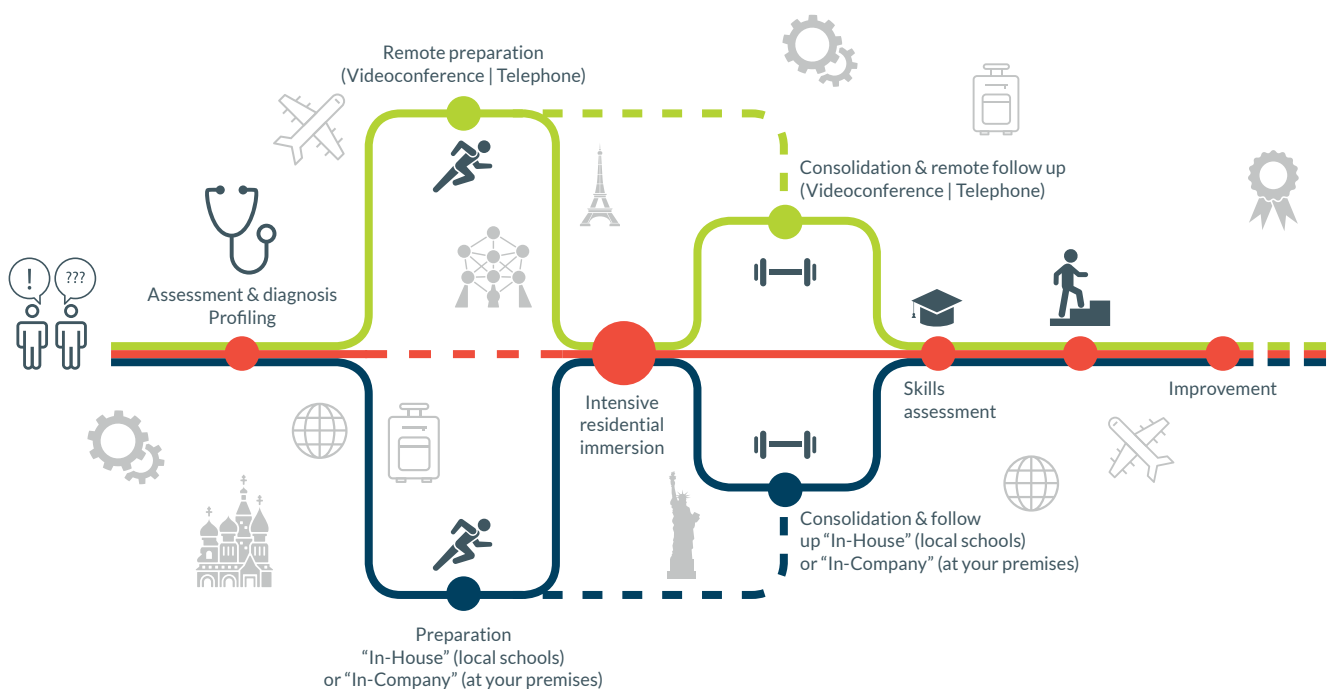

Are language difficulties limiting your opportunities?

Entrust your training to an expert partner to help you reach your personal and professional goals.

**We focus on your challenges to make you operational as quickly as possible!**

## INTENSITY IS NOT MEASURED, IT IS EXPERIENCED ...

In order to meet your international communication needs, we have developed **intercultural and language training itineraries** that can be adapted to your **objectives, schedule and budget**.

Our consultants analyse your project and, with their help, you develop a package that suits you by combining different complementary formulas: **residential immersion**, regular **coaching** sessions in our centres or at your premises, distance lessons, **group, individual or mixed formats**, in an international environment or with your own colleagues.

**A complete and objective diagnosis of your situation and needs is the starting point for successful training!**

We provide you with experienced trainers, a pragmatic and structured approach (QRI®, verbo-tonal method, key sentences), a motivating environment, professional and cultural exchanges.

A unique approach that adapts to your situation and develops your autonomy to help you quickly reach your objectives on a long-term basis!
