

BROCHURE 2023

« Cannes, a city where congresses rhythm the year, the weather is always mild, and the Mediterranean Sea brightens your days. »

THE COLLEGE

Collège International de Cannes is a French learning institute located in the heart of a 10,000 square meter wooded park.

Since its creation in 1931 by famous poet Paul Valery, the institute aims to reinforce solidarity between students through learning.

This project is carried on by both passionate teachers and curious students, eager to learn and discover new languages and cultures.

In addition to its diverse cultural and event planning, Collège International de Cannes provides customisable programs within a welcoming and intercultural context.

Collège International de Cannes is a unique place in the region, defined as the "toolbox" for linguistic and professional learning.

The director's word

« Everyday, we work for the improvement of the quality of our services.

Everyday, we give priority to make sure the products we provide correspond to what we offer.

Everyday, we strive to act towards others as we would like them to act towards us, our children and our loved ones. »

Serge BOTTIN
