

2024 LEARN A LANGUAGE ABROAD

ENGLISH • FRENCH • GERMAN

WHERE CAN KAPLAN TAKE YOU?

WELCOME

The past year has proved to be one of the most exciting and productive that Kaplan International Languages has seen in a long time – and it's only going to get bigger and better in 2024!

While we are best known for our immersive language courses abroad, in 2024 we will invest in the entire student experience. We plan to open even more schools in exciting locations around the world and create additional products that will cater to a wider range of students and help them achieve their academic, professional, and personal goals. After all, when you study with Kaplan, you don't just learn a language, you also form friendships, develop valuable interpersonal skills, and have thrilling new experiences that you won't have anywhere else. We might specialize in education, but we're also experts in adventure.

The future is bright, for sure! But first, let's look back at some of the new schools we've established in recent years, and which are now thriving wonderfully. As one of our most popular destinations, our new school in the heart of Manhattan in New York City has proven to be a hit with students, who flock to study at our spectacular campus near Central Park. We've also opened newly renovated schools in the downtown areas of Edinburgh and Boston – the perfect base for exploration! Finally, our new London 30+ school in the dynamic London Bridge area has been receiving enthusiastic reviews from students – after all, who doesn't want to study in style?

At Kaplan, it is our policy to provide our customers with the best, which is certainly why 96% of our students recommend us! As we move forward, we will continue to reevaluate, update and improve our portfolio of schools, destinations, and ensure that we offer the right mix of accommodation options for students. Over the past year, we have diligently searched for the best new residences across all destinations and listened carefully to student feedback on current ones. I am proud to say that we have created many new partnerships that we are confident will enhance the overall student experience.

And the innovation doesn't stop there! In the spirit of upgrading the Kaplan adventure, we are creating different technology and education-based products that will help students navigate their trip and maximize their understanding of the language and location. We are putting huge investment into optimizing and rejuvenating existing products so that they are as effective and accessible as possible. We did this last year with the Kaplan Online English School, and it is now providing high-quality remote learning to many students across the world.

We have big plans for 2024, but with our students at the core of what we do, and with a dedicated team behind us, we can achieve anything.

Join us on our journey,

WE ARE KAPLAN INTERNATIONAL LANGUAGES

THE WORLD'S LANGUAGE SCHOOL

No matter what's going on in the world, learning a language is always an incredible way to enrich your life. We've been helping students from all walks of life to fulfil their academic, professional and personal potential for over 85 years, and now provide English, French and German courses around the globe. We believe in the power of language education to open doors, create exciting futures and change lives.

WE ARE INTERNATIONAL

Languages bring us together. In a typical year, we welcome over 40,000 students to our schools from Europe, the Commonwealth of Independent States (CIS), Asia and the Pacific, the Americas, Africa and the Middle East, uniting individuals from different cultures to help nurture an expansive and inclusive worldview. Whether you're studying with us in school or remotely from thousands of miles away, you're working with people from all over the world towards a shared goal.

WE'RE ALWAYS ADAPTING

We've seen many changes and major events in the world in the 85 years we've been teaching. Through it all, Kaplan has continued to deliver high-quality language tuition that changes lives for the better. This year, we've introduced Kaplan Online English, a blended learning suite that takes the best of our immersive learning experience and makes it available online, from wherever you are in the world. In our schools, we've implemented extensive new safety measures to help everyone feel confident while studying with us. And as we're part of Graham Holdings, a large and well-established company, you can be sure that we'll always be here to welcome you, even during uncertain times.

WE DELIVER EXCELLENT LANGUAGE TUITION

We strive for excellence in everything we do and everything we offer at Kaplan. Our dedication to providing quality language education is reflected in our 97% recommendation rate from our past students and our 'Excellent' rating on Trustpilot. We follow our own bespoke curriculum, delivered by friendly teachers from diverse backgrounds who understand exactly what it's like to study abroad. Our courses can be complemented with add-ons so you can maximize your study time, while our social programs allow you to apply what you've learned in fun and engaging ways.

WE'RE PASSIONATE ABOUT LANGUAGES

We believe that languages are the key to the world. English, French and German are the languages of international business, the United Nations, music, science, literature and so much more. Speaking another language empowers you to explore new places to and excel in ways you may never have thought possible.

DID YOU KNOW?

- Bilinguals can focus more easily and multitask more effectively than their monolingual counterparts
- More than a third of positions advertised by Bank of America in 2015 were for bilingual workers
- Being bilingual can improve your creativity – having two or more words for one idea can improve elasticity of thinking

When you can speak another language, the future you want is within your reach. And with Kaplan, you'll receive guidance and support every step of the way.

85 YEARS OF EXCELLENCE IN EDUCATION

As one of the world's largest and most diverse education providers, we've been helping students to achieve outstanding results for over 85 years. Founded by Stanley Kaplan in 1938 to increase access to education, Kaplan now has operations in 28 destinations and offers education and training to more than one million students worldwide. Finally, Kaplan benefits from the financial stability that comes from being part of the large Graham Holdings Company, formerly The Washington Post Company, so you can rest assured we will be here to welcome you when it's time to study.

GROW WITH KAPLAN

At Kaplan, we help you to grow in all kinds of ways. Not only your language skills, but your self-confidence, your awareness of other cultures and your opportunities in life.

When you choose Kaplan, you are choosing a school you can trust to help you achieve this growth – and we make sure nothing gets in your way. We have thought of everything to make your stay the most rewarding and comfortable experience possible.

OUR PROMISE TO YOU

Our customer service is underpinned by three promises – that you will **grow your confidence**, **grow your skills** and ultimately **grow your future prospects**, once you've mastered a new language.

GROW YOUR CONFIDENCE

We can arrange for a friendly face to meet you at the airport and help you find your way around. On your first day you'll have a welcome tour of your destination and we'll introduce you to everyone at the start of your course. Our carefully selected homestays and student residences all provide a safe, comfortable and supportive environment where you'll feel at home.

If you need someone to talk to at any time of day or night at our English schools, there will always be someone at the other end of the phone on a 24/7 helpline. You'll be living like a local before you know it.

GROW YOUR SKILLS

When you study English with us, we'll create a personalized learning plan for you on your first day and adapt it as your skills grow. You'll also benefit from our advanced testing system, KITE, to assess when you may be ready to move up a level. We'll guarantee your progress on selected intensive English courses, and you can track your improvement through our proficiency levels.

Outside the classroom, our social programs on all our language courses give you the opportunity to apply everything you've learned to the real world. All activities will not only help you to explore your destination, but to improve your language skills.

GROW YOUR FUTURE

On our English courses, we offer a one-to-one check-in two weeks before the end of your course to make sure you've got everything you wanted from your time with Kaplan. If you feel like you want to grow your skills even more, we can arrange course extensions and extra tuition for you, depending on your needs.

It doesn't have to end here – stay in touch with your new international network and expand it even more by joining our exclusive alumni community for English to stay involved with Kaplan.

OUR APPROACH TO TEACHING LANGUAGES

At Kaplan, we believe the best way to learn a language is to throw yourself in at the deep end right from the start, practicing what you've learned every single day. Our seamless learning experience integrates the power of full immersion, the best of modern teaching methods and a bespoke curriculum. As you discover all the wonderful things your new city has to offer, you'll find yourself practicing what you've learned in the classroom and absorbing new vocabulary every day.

ENTHUSIASTIC TEACHERS

We choose friendly teachers from a variety of different backgrounds. Our teachers provide dynamic and interactive lessons designed to prepare you for using a new language in the real world, and they take personal satisfaction in helping each individual grasp complex ideas. Small class sizes allow our teachers to get to know you and help you to build a personalized learning strategy that works for you.

360° LEARNING

We frequently update our materials to keep lessons interesting and relevant. Class activities could revolve around events in the news or recent movies or TV shows. We work with the latest technology to ensure your learning process is seamless and intuitive, with no awkward transitions between in-class study and home assignments.

EXCELLENT FACILITIES

Our schools use an interactive learning display to bring exercises for our curriculum to life. Our multimedia labs are much more than somewhere to check your email – they're equipped with interactive online tools to help you dig deeper into what you've learned in class. Many of our schools also provide Chromebooks for student use.

“ I was very surprised by the high level of motivation by the teachers – I had never seen anything like that before. All the teachers were very caring and dedicated and always took the time to answer the students' questions and concerns.

”
Sina Dommann, Switzerland

”

“ I have been teaching French for around two years now. It is important for me to help the student improving their knowledge of French. I enjoy seeing them obtaining the best level they can reach. I would love to introduce more our occidental culture to all the countries around the world. I can also speak Japanese, so I would love to see more Japanese people learning our beautiful language and culture, so *みんな来てください!* Nous vous attendons tous!

”

OUR STUDENT SUCCESS STORIES

Gozde Zengin
Turkey – Studied in Boston

“ I came to study English because I wanted to be in a better position in the company where I worked. When I first came to Kaplan Boston language school, I thought that I would only improve my English. Since the first day I arrived, I have had the chance to learn about a range of cultures. I have made friends from Taiwan, Japan, Colombia, Korea, France... and many other countries.

”

Mirko de Martini
Italy – Studied in Dublin

“ I decided to study English because nowadays it's an important language to know. It's really useful if you want to work in a multinational company. But being here I understood that the most beautiful thing is that with English you can communicate with everyone. You are not stuck with your nationality – you can go beyond that. When I decided to study English, it was only for career reasons but now that I'm going to finish my experience, I think that it's more for communication.

”

Alejandro Contreras
Venezuela – Studied in Bournemouth

“ What I like about my teachers is they always try to speak with me as if I was another British person. They treat me as someone who's walking in the street and they come across and talk – that's quite challenging, but I really like it. I like the way they want me to improve every single time and they support me in every doubt I have, and this is awesome.

”

Claudia Lasso
Mexico – Studied in Manchester

“ Taking an IELTS course at Kaplan Manchester was for sure one of my most valuable life experiences so far... Not only was I able to score a C1 on my IELTS, but I also had the time of my life! I met incredible people that I can now call my friends!

”

Noël Spigaglia
Switzerland – Studied in Los Angeles

“ The most enriching part of (the Kaplan) experience was absolutely having been able to meet new friends from all over the world, which allowed me to broaden my cultural horizon.

”

OUR RESPONSIBILITY AS A GLOBAL EDUCATOR

Since its founding more than 85 years ago, Kaplan has been a beacon for expanding educational access. In the US, where Kaplan is headquartered, the Kaplan Educational Foundation has been supporting students from economically and socially disadvantaged communities to progress to top US universities since 2006. In other parts of the world, Kaplan International partners with charities and non-profit organizations on a range of initiatives that help remove barriers to education and career development.

HELPING TO EDUCATE CHILDREN ACROSS THE GLOBE

We've been working with Plan International UK since 2013 to help deliver better educational opportunities to girls in Sub-Saharan Africa. In Senegal, Kaplan's funding has helped Plan International to support 1,000 girls aged 9-16 across 16 schools in improving their education. In Sierra Leone, Kaplan has been working with Plan International to give 483 young women the chance to become teachers, following guidance by the Forum of African Women Educationalists.

Most recently, we supported Plan International's SAGE Zimbabwe project, which worked with communities across Zimbabwe to help girls return to education by providing safe learning hubs and vocational apprenticeships. Through this project, some 16,000 girls returned to learning and as a result, can now transition into work and build a safer future for themselves.

We are currently supporting Plan's PLANE 2 project in Northern Nigeria, which looks to help displaced children who are fleeing conflict back into education. The project aims to create fully equipped, safe learning spaces for children to access, along with teacher training programs to ensure high quality teaching and community awareness programs to ensure project sustainability.

REFUGEE AND VOLUNTEER TEACHING

Working with charities such as RefuAid, we have sponsored refugees from Syria and other conflict zones to study English at our schools. We also provide licenses for our online learning materials to groups teaching refugees and asylum seekers.

CARING FOR LOCAL COMMUNITIES

We run regular volunteering and donation drives for disadvantaged communities and offer our facilities to charities and local schools. This not only benefits those in need, but also helps our students to build connections within

an English-speaking community. We have also provided food and clothing to local homeless shelters, collected sanitary products and toiletries for victims of domestic violence, and donated IT equipment for use in African schools.

THE KINDNESS CURRICULUM

The Kindness curriculum is a free program for schools and was designed by Kaplan in partnership with the Kindness Factory, a global non-profit organisation in Australia and the USA, committed to making the world a kinder place through education. Adopted in more than 3000 schools, the curriculum provides teachers with practical learning activities which helps children explore and practise different ways of being kind and experience the positive outcomes that come from kindness.

LEARNING FRENCH AND GERMAN WITH ALPADIA LANGUAGE SCHOOLS

Alpadia has over 20 years of experience in providing Swiss-quality language tuition mixed with a healthy dose of adventure and entertainment. Our effective and dynamic teaching methods allow our French and German schools in Berlin, Lyon, Freiburg and Montreux to boast an average exam success rate of 97%.

HOW WE TEACH

Our approach to teaching languages is based on achieving fluency for the real world – not on simply completing exercises and recalling vocabulary in class. Following the CEFR levels (Common European Framework of References for Languages), we use various recognized FLE (French as a Foreign Language) and DaF (German as a Foreign Language) methods in our lessons, as well as referring to real-world resources like the news, films and local festivals taking place in our destinations.

OUR SKILLED TEACHERS

We choose our teachers based on their degree-level qualifications and for:

- Their experience in teaching a foreign language abroad
- Their enthusiasm and ability to create exciting and interactive lessons
- The attention they pay to each student
- Their lively and personalized teaching style that guarantees long-lasting progress

YOUR PROGRESS

Our pre-arrival online language placement test allows you to begin your French or German course at the level that's right for you. Once you've started your course, you'll complete a test every Friday to check your progress. You'll also fill in a weekly feedback form which will include your teacher's comments about your work so far and potential areas for development. When either you or your teacher feel you're ready to move up a level, you'll talk about it together and decide on the best way to move forward with your learning.

LANGUAGE IMMERSION

Learning a language happens as much outside of the classroom as it does inside it. Our wide variety of after-class activities and trips to nearby cities, museums and attractions provide the perfect opportunity for you to apply what you've learned to real-life situations, all while making new friends and exploring an exciting destination.

WORKSHOPS AND MASTERCLASSES*

To help you adjust to living abroad and prepare you for what you might encounter after you've finished studying with us, we hold weekly workshops and masterclasses on how to:

- Understanding the French job market
- Where to look for a job?
- How to write a CV
- How to write a cover letter
- How to prepare for a job interview
- Job interview training

*Available for students taking part in the Work Experience program only

“

I was in Lyon for a month and I enjoyed myself here! I chose this destination because Lyon seemed to be an ideal city to live and study and it's absolutely true! There are many things to do (very interesting museums) and it's also a perfect city to go out at night with friends from the school. I stayed with a host family and I think it's the best accommodation option to practice French. The classes were really interesting and useful - the teachers were very competent and on top of that I got to meet many students from all over the world.

“ I had received good feedback regarding the French courses organized by Alpadia. As my main goal was to improve and perfect my French, I decided to register and indeed was greatly satisfied with the course. The classes were very motivating, fun, enriching and I learned a lot. The teachers were really nice as well! I have always been passionate about French and France in general, so I was really happy to be able to discover one of the loveliest cities in France: Lyon! I thought that Lyon was a small city that I could visit in a few days, however I realized that I was wrong! Lyon is a really pretty city where everything works really well. There are lots of things to do, from culture to nature, sports and riverside walks - the gastronomy also took me by surprise! Here is perfect!

”

Mari, Japan
Studied in Freiburg

“ My arrival in Freiburg was smooth, because the city is close to Frankfurt. I reached the city by long-distance coach - that's cheaper! The apartment was really tidy and the lady had furnished everything really nicely. The location was good too. You can reach it easily using the tram. Freiburg is a nice city - it's neither too big nor too small and you can take many trips from there. I like the life here a lot, that's why it's my second time here. The classes depend a lot on the teacher. We are having a lot of fun learning grammar and having the chance to speak a lot and to discuss with the other students. I like it! There are many Swiss students here, but luckily they talk German to me. We get along very well together, especially now that I am not afraid of talking anymore, even though my German is not perfect yet. After my language course I would really like to find a job in Germany. Next week I even have a job interview in Bavaria!

“

This sabbatical period for me is very important. If I didn't do it, I couldn't get another job in my position or in another level, because for my position English is necessary, for another level it's mandatory, so I don't have another option – and thank you to Kaplan, it has been amazing for me.

THE KAPLAN FAMILY

Over 85 years ago, Stanley Kaplan, aged just 14, began tutoring his peers in the basement of his parents' home. As a Brooklyn-born son of immigrants and a first-generation college student, Stanley believed in the power and necessity of education for all. He believed that success should be based on merit - not heritage, wealth, or social status. He cared about enabling people to access education, regardless of their background, and he saw standardized tests as a way to open doors. But Stanley was preparing students for far more than just tests - he was preparing them for a lifetime of success.

Stanley's humble beginnings marked the beginning of Kaplan as we know it today. Now, the Kaplan family encompasses a wide variety of companies, all founded on the belief that everyone should have access to a good education. Whether your goals are related to medicine, finance, business, or a range of other subjects, we can help you achieve them.

KAPLAN TEST PREP

Kaplan Test Prep offers preparation for more than 200 standardized tests, including entrance exams for secondary school, college and graduate school, as well as professional licensing exams for attorneys, physicians and nurses.

KAPLAN INTERNATIONAL PATHWAYS

Kaplan Pathways' courses prepare international students for bachelor's, master's and doctorate degrees at one of 40+ partner universities in the UK, US and Australia, helping you to bridge the gap between your current qualifications and the requirements of your chosen university.

“

My host family was incredible. They were interested in us, asked questions, we were able to eat with them, and they picked us up after the different outings. They really took care of us and made sure that we felt comfortable. This allowed us to practice our English even more and to improve even quicker. In my opinion, living with a family only has benefits.
