

Medical Shadowing in South America

Chile – Argentina – Peru

Who may participate in Medical Spanish?

Pre-med, nursing, and medical students as well as health care professionals. Your Spanish level can be novice through very advanced. However, you should be at least intermediate to appreciate the clinical shadowing.

What are the program components?

Spanish Course with combination of Medical shadowing

12 group lesson + 4 private lesson (this program does not include medical terminology, this is available with a extra cost.)

Clinical Shadowing. *Two session of 3 hours each / week*

optional Here you will get to see Latin American health care in action two times per week. If you are a premed student, this can help motivate you in your future studies. On the other hand, if you are a practicing health care professional you will observe differences with procedures back home.

Medical Spanish Lessons. *optional* Supplement your course with health care vocabulary and/or role-playing scenarios. Specialized classes designed to help you in future patient diagnosis and instructions. If you want to understand phrases like "me duele tanto la espalda" or "me pica la garganta" sign up for these.
