NSTS MALTA

NSTS ENGLISH LANGUAGE CALLING

NSTS is proud to be the innovator of English language education for non-native speakers in Malta, a journey that began during the final years of British presence on the island over 60 years ago.

This marked the beginning of Malta's success story in English language education, with NSTS leading the way. For decades, we were the sole institution in this field, later forming a national federation to foster cooperation and establish high-quality standards. Our advocacy efforts on a national level culminated in the creation of the world's first legislation dedicated to language teaching to non-native speakers nearly 30 years ago.

NSTS English Language Institute continues to innovate with each year, providing high-quality, modern methods to help you advance your English-speaking skills against the inspirational backdrop of the Maltese Islands.

Our accommodation offerings vary from modern self-catering studio rooms at NSTS Student Residences to sharing apartments for adult students**.

We recognise your existing language abilities and present opportunities to practise and improve through real-life tasks in our English classrooms, in a manner which prepares you for real-world communication in the 21st century.

ADULT

GENERAL & INTENSIVE ENGLISH

Sharpen your English communication skills with our General & Intensive English courses. Whether you want to improve your speaking, listening, reading or writing, our programmes cover all the bases.

Join us on any Monday morning throughout the year for any duration between 1 week and 1 year. The longer you stay, the more you save on tuition fees per week.

Learn alongside approximately 7 other international adult learners like yourself, as you engage in interactive lessons and activities led by professionally qualified teachers.

At least 2 weeks before starting your course, you will take an online graded assessment. This allows us to determine your level of English, assess your strengths and weaknesses, and place you in the most suitable class.

Beginners, or Council of Europe Framework Reference CEFR level A1 learners, are only accepted on the one-to-one Absorption English for Beginners Course (page 7).

Following this, we will accommodate your level and provide you with tailored learning materials that will motivate you to better your skills. The topics covered in class are action-oriented and relatable to everyday life, centring around your interests and lifestyle activities.

Our methodology is designed to give you strategies for independent learning, which help you maintain confidence in your communication abilities when you return home to your regular routine. What's more, students are encouraged to continue their studies by following 4 online lessons per week.

You can choose to follow only 20 lessons* a week from Monday to Friday. These make up the General English Course. Alternatively, you may increase your weekly lessons to 25 or 30 to attain faster results in a shorter time. These are called Intensive. General and Intensive English courses share the same classroom format and blend well with online lessons.

What's more, classes are held in the morning leaving you plenty of time to explore Malta's cultural riches and leisurely lifestyle. Our friendly Student Relations Team organises afternoon or evening activities and is available to accompany you on request. In the process, you get to see the best of what our island has to offer while also practising your English informally.

Complete your course with a Certificate of Merit and Attendance, reflecting your CEFR class level and progress.

We are dedicated to helping you achieve lifelong success in English, just as NSTS has.

Specialised fields include English for Accountancy, Economics, Journalism, Medicine, Law, Architecture, Engineering Digital Marketing, Tourism and more.

Even if you choose to follow this ESP Course of 30 lessons every week, your lessons will be over by 14:15 hours, enabling you to enjoy your afternoon.* Plus, you will be eligible to receive a Certificate of Merit and Attendance which will highlight your ESP.

Maximise your potential and achieve your professional and academic goals with NSTS's Top-Up English for Specific Purposes courses.

ADULT **ABSORPTION**

ENGLISH FOR SPECIFIC PURPOSE

If you possess a sufficiently high level of English at around CEFR level B1 and want to dedicate all your lessons to your specific purpose, you can choose to follow individual one-to-one lessons in your subject of specialisation, rather than following the General English group lessons.

If you're a beginner at CEFR level A1, you can also enrol in our General English for Beginners course which is available as individual one-to-one lessons starting on any Monday of the year.

You can select from 10, 15, 20, 25, or 30 lessons a week, scheduled from Monday to Friday. Alternatively, you can save time and follow all your 20 or 25 lessons over a weekend from Friday afternoon to Sunday late afternoon.*

At the end of your course, you will receive a Certificate of Merit and Attendance highlighting your ESP.

ACCELERATED COMPETENCE IN ENGLISH CONVERSATION

Our Accelerated Competence in English Conversation programme offers an opportunity to bridge this gap, enhancing your spoken English skills in a practical and immersive environment.

Join your school's subsidised English language trip for one or more weeks and immerse yourself in a holistic English-speaking environment tailored to meet your emotional, social, ethical, and academic needs.

To complement your formal lessons, you partake in non-formal out-of-school listening and speaking simulations on two weekday sessions. These include multimedia presentations, explorations of heritage site treasures, video and photo shooting, and engaging discussions.

This programme includes 15 hours of weekly English lessons and 7.5 hours of engaging evening activities. This light programme gives schoolteachers the flexibility to combine on request half-day volunteering activities or cultural outings from the list of "Cultural Immersion" sites.

This approach not only provides essential English practice, but also creatively connects classroom subjects with real-world applications.

Internships must last for a minimum of 3 weeks, with students engaged for 35 hours per week. You must be at least 17 years old to apply.

A byproduct of this career-oriented experience is the continual communication in informal English, resulting in a natural improvement in your fluency.

NSTS STUDY ABROAD CALLING

NSTS is proud to have launched the Study Abroad programme in Malta, aligning with the European Union's mobility policy shortly after Malta joined the EU twenty years ago.

In the rapidly expanding field of international education, which has more than tripled in the post-COVID era to over six million students worldwide, Malta stands out as an ideal destination.

Malta offers you the British system of education with a Mediterranean flair of a pleasant, mild, sunny winter climate characterised by safety and a friendly cosmopolitan population.

As a small and welcoming country, Malta serves as the perfect setting for students to discover more about themselves, learn the value of independent living, and make autonomous decisions— all essential elements for adulthood during a Gap Year or Semester.

On NSTS's part, we support you on every step of this journey by providing Guardianship support, and airport transfers.

Take up an international study experience and stand out in any selection process.

UNIVERSITY PATHWAY

At NSTS, we offer a comprehensive University Pathway Programme aimed at students aged 16 and over who aspire to develop academically and build essential soft skills for a globalised world.

This programme combines intensive English language studies with foundation courses in Business Management, Economics, Mathematics, and ICT. These prepare you for International Advanced and Advanced-Subsidiary level eligibility qualifications for university admissions worldwide.

The full programme spans 2 academic years, but you can opt for a shorter intercultural Gap experience by spending just a term, semester, or year.

Additionally, you may align your starting dates to your usual Northern or Southern Hemisphere calendar, even though you'd be studying in Europe's Northern Hemisphere zone.

In the first semester, 15 hours per week are dedicated to elevating your English from CEFR level A2 to B2+, aiming for a minimum score of 6.0 on the IELTS exam.

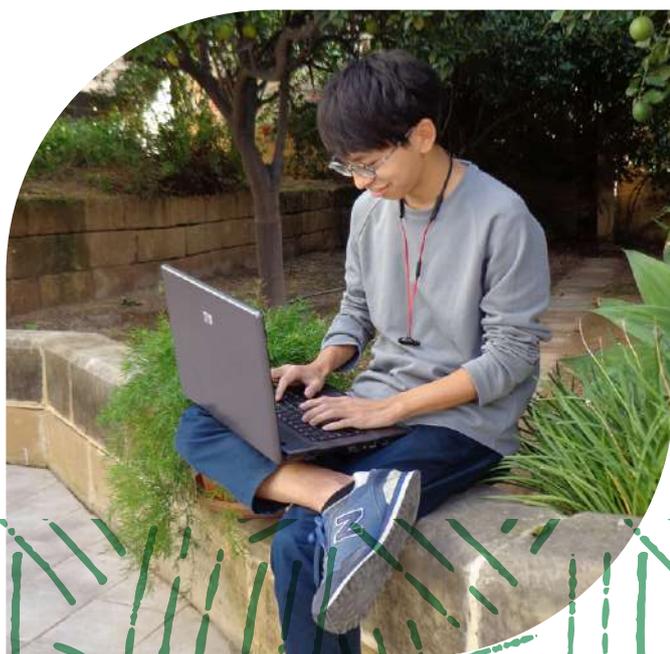

At the same time, you will be gently introduced to your other four business-related subjects for around 6 hours a week, which will increase to 12 hours per week in the

second semester as English lessons are reduced. This accelerates during the second year to prepare you for the International Advanced Level (IAL) exams.

Moreover, time is dedicated to fostering essential life skills, employability, organisational abilities, as well as preparing to become responsible and active members of the global society through experiential and autonomous learning. This fusion provides you with the triple achievement of studying business related subjects at pre-university level, preparing your life skills for adulthood, and actively qualifying yourself in English proficiency.

You will be welcomed by ongoing Guardianship support and care, starting with a three-day arrival cultural orientation seminar. This is followed by extracurricular activities, engaging debates, friendly reunions, opportunities for sports, fun and entertainment, all in mutually respectful cooperation.

Your boarding accommodation is shared with your peers in twin rooms, or in a single room, with private facilities, Wi-Fi, environmentally regulated heating/air-conditioning, various amenities, and three meals a day.

SECONDARY/ HIGH SCHOOL & SENIOR HIGH SCHOOL

Our Secondary/High School & Senior High School Exchange Programmes are perfect for students aged 13 to 18 who wish to immerse themselves in the local education system and culture, sharing classes and activities with Maltese peers.

The last two years of schooling in the British System of Education are grades 12 and 13 for students from the age of 16 years. To join, students must select five subjects from a provided categorised list, two to be studied at Advanced level and three at Advanced Subsidiary level, together with the mandatory Systems of Knowledge.

Should you be 13 to 15 years of age, you will join the regular secondary/high school classes with Maltese peers in grades 9, 10, or 11. The curriculum includes English, a second European language, mathematics, humanities, sciences, physical education and social education.

Upon applying, you will be invited to introduce yourself virtually and discuss your motivations in English. This helps us assess your language skills and ensures placement in the appropriate school and homestay environment.

Plus, you will have the opportunity to join your new classmates on optional extra-curricular activities. You will also receive ongoing NSTS Guardianship support, which includes a three-day arrival orientation, regular coordination meetings, organised gatherings, and outings.

As you carry out your studies, you will live in a shared room on full board at a friendly host family, including a packed lunch. Your stay also includes school tuition; While uniforms, books, and daily school transfers are not included, your Guardian will assist in arranging these.

Experience life in Malta, enhance your English skills, and make lifelong connections along the way.

NSTS INTERNSHIP AND VOLUNTEERING CALLING

Enhance your career prospects and intercultural understanding with NSTS's Internship and Volunteer programmes. These opportunities provide practical experience in an English-speaking environment, allowing you to improve your language skills while doing something meaningful.

Nowadays, practical hands-on learning in another country is strongly promoted to complement formal school education, increase international understanding, and to ease cross border cooperation.

Whether you choose to intern in commercial establishments and public institutions or volunteer with non-governmental organisations focused on societal wellbeing, you'll gain valuable skills and insights.

As an intern, you'll contribute to the daily operation and success of the enterprise. As a volunteer, your efforts will not only support the host organisation but also make a significant impact in the target community by addressing its needs.

Accommodation varies from modern self-catering studio rooms at NSTS Student Residences** to sharing apartments for adult Interns and Volunteers**.

The programme includes airport transfers, a warm welcome, and first-day placement transfers, ongoing Mentoring by the NSTS Team to ensure a smooth transition into your internship or volunteering experience.

**** Refer to page 24 for Accommodation Information**

ADULT INTERNSHIPS

NSTS's Internship programme gives you the opportunity to apply your academic or vocational studies in a practical, culturally diverse environment. Our tailored internships provide you with on-the-job training in a variety of sectors, enhancing your skills and career prospects.

Interns engage themselves full-time under the guidance of an experienced Mentor, setting personalised training programs aligned with their career goals. This partnership focuses on clear objectives and achievements, leading to a certificate recognising the intern's accomplishments.

Internships are open to vocational or university students aged 17 and older, as well as graduates, who should all have a minimum CEFR B1 level of English. If your English proficiency is considered unsatisfactory at an online interview, a minimum 2-week preparatory English course is required.

After submitting your application, including your CV and motivation letter, an NSTS Monitor will discuss your goals and placement options during the online interview to ensure a suitable match.

ADULT **VOLUNTEERING**

If you are passionate about contributing to society and want to gain invaluable experience, NSTS offers diverse volunteering opportunities that allow you to make a meaningful impact. This programme is ideal for those aged 16 and above, with at least a CEFR A2 level of English, who are motivated to improve their language skills while volunteering.

The Volunteering programme allows you to engage in projects dedicated to causes that align with your interests and skills, such as animal care in shelters, environmental conservation, cultural heritage preservation, social inclusion, or supporting disadvantaged groups.

Before your arrival, you will have a virtual meeting with your NSTS Monitor to discuss the best placement option. You will also be guided by a dedicated Mentor who will help tailor your volunteering outcomes to match your CV and motivation letter.

Upon arrival, your NSTS Monitor will provide an arrival orientation briefing, introduce you to your Mentor, as well as offer continual support throughout your stay, ensuring a fulfilling and enriching experience.

In all, your volunteering assignment will maximise the impact and benefits of your experience.

HOTEL

For those who prefer more privacy and comfort, NSTS can arrange accommodations in local 3-star or 4-star hotels, or charming boutique hotels. Enjoy well-appointed rooms on a bed and breakfast basis, offering a peaceful and restful environment. Let us know your preferences, and we will provide a tailored quote to meet your accommodation needs.

APARTMENT

If you are travelling as a family or group of friends and you wish to live together but independently, apartments are an excellent choice. Malta offers a wide range of holiday apartments that can be booked directly online or through NSTS.

Apartments vary in size and amenities, providing flexibility to suit different group sizes and preferences. In cases where NSTS Student Residences are fully booked, we may recommend an apartment as an alternative.
