NSTS MALTA

NSTS ENGLISH LANGUAGE CALLING

NSTS is proud to be the innovator of English language education for non-native speakers in Malta, a journey that began during the final years of British presence on the island over 60 years ago.

This marked the beginning of Malta's success story in English language education, with NSTS leading the way. For decades, we were the sole institution in this field, later forming a national federation to foster cooperation and establish high-quality standards. Our advocacy efforts on a national level culminated in the creation of the world's first legislation dedicated to language teaching to non-native speakers nearly 30 years ago.

NSTS English Language Institute continues to innovate with each year, providing high-quality, modern methods to help you advance your English-speaking skills against the inspirational backdrop of the Maltese Islands.

Our accommodation offerings vary from modern self-catering studio rooms at NSTS Student Residences and host families.

We recognise your existing language abilities and present opportunities to practise and improve through real-life tasks in our English classrooms, in a manner which prepares you for real-world communication in the 21st century .
