### WHY SPANISH + COMPANY PLACEMENT IN SEVILLE?

In addition to its worldwide famous beauty, Seville is the economical, cultural and political capital of the region of Andalusia. This medium sized city of just under one million inhabitants offers a high quality of life due to its climate and geographical location: more than 300 days of sun per year and only 1 hour and a half away from Atlantic and Mediterranean beaches and only 2 hours 30 minutes from Madrid on the high-speed train (AVE).

Since hosting the Universal Exposition in 1992, Seville has developed into a cosmopolitan and active city attracting a high number of national and international investments.

The city offers therefore a wide range of professional activities that include aerospace and food industry, engineering, hospitality and tourism, cinema and theatre productions, art galleries and convention.
