Sprache und Bildung leben

More than 25 years of dialoge

Our team, made up of experts from ten countries, are personally and professionally committed to their work at our three locations: Lindau on Lake Constance (Germany), Immenstadt im Allgäu (Germany) and Lucerne (Switzerland).

Since 1991 we have specialised in

- modern, innovative language training
- work and study – from the language workshop to the working world
- the successful leadership of forward-thinking, regional and Europe-wide language and training projects

Our institute is on the island of Lindau and has a wonderful view of the harbour and the Alps. Light, welcoming course rooms, a cafeteria with a large panorama terrace, a media library and modern technology including WLAN offer optimal conditions for a successful language stay.

Living languages and training

Living languages and training – what that means for us:

- Passion for languages and the teaching of languages
- Involvement in intercultural exchanges
- Continuous further development of our goals and quality standards
- Practised and authentic hospitality
- Professional, competent and respectful treatment of customers and partners, as well as team members

Be there, get more

Modern, communicative, interactive. This sums up our classroom training in just a few words. Each learning group has a maximum of eleven participants. This applies to courses of all levels, from A0 to C1.

Our language trainers ensure that the course participants improve their language skills in an effective way to reach their personal goals and have fun while doing so.

We provide carefully selected material for independent learning at our “learning islands”.

We are a certified test centre and offer all tests (telc and TestDaF) onsite at our institution.

Morning + afternoon = twice as good

Those who attend the afternoon sessions in addition to the intensive course in the morning can achieve especially fast progress.

Week schedule of an exemplary methodology course

Classroom learning: That has class

dialoge offers tailor-made specialised courses for school classes from abroad. The timetable contains either 20 or 25 lessons (45 minutes each). Groups of maximum 15 participants are formed for the lessons.

The learning content is optimally designed for groups of school-aged learners.

In order to enable especially sustainable and realistic language acquisition, the course includes not only accommodation in a German host family but also an extensive culture and leisure programme. This includes day trips, museum visits, sporting and social activities. The accommodation in a host family can be booked with single rooms as well as double rooms with half or full board.

As far as required, dialoge can arrange work experience placements in the hotel and restaurant industry, in agriculture and in the crafts and trades sector.

Seasonal jobs: Experience a German workplace

Due to our strong regional network, we arrange seasonal jobs in the tourism industry. (If professional experience is given, enquiries for other industries can be sent as well.) Doing so, we offer the participants in our German courses the opportunity to consolidate and deepen the acquired language skills and also use them in specialised professional situations. Furthermore, they acquire expertise and experience in the respective industries.

The prerequisites to successful placement in a job are EU citizenship, proof of B1+ level language skills by the end of the course, as well as a well-groomed appearance. The participants should be between 18 and 30 years old.

Demi-pair: Family included

The Demi-pair programme runs parallel to the intensive language course (20 teaching units per week) over the course of minimum 24 weeks. The participants look after the host family's children and help with light housework for up to 20 hours per week in addition to the course.

In return, the host family provides the participant with a single room with half board. In order to be able to communicate well with the host family, a language level of B1 is a prerequisite for this programme. The Demi-pair programme is aimed at participants aged between 18 and 30 years.

Fit for work

The close proximity to professional practice plays an important role in our department 'education'. We have a lot of experience in planning and implementing European funding programmes in the fields health, integration and experiential education, most of these in connection with language. Based on this, we act as the lead partner for foreign trainees in Germany, connect employers and foreign job seekers and cooperate in integration and training projects.

We characterise ourselves as:

- Focused on current studies and developments in the job market
- High-quality performers, as we are AZAV accredited (certified in helping job seekers retrain to find employment)

We support employers and employees with our coaching in their personal and professional further development.

Our accompaniment offer makes integration in Germany and entry to the job market a lot easier for foreign employees.

Long-term partnerships and fair cooperation are important to us.

dialoge offers foreign language students and job seekers the following:

- A combination of work and study: either by way of a job, a seasonal job or a Demi-pair programme
- Support when entering the German world of work
- Specialised, communicative language training

dialoge offers companies:

- The conception and implementation of specialised language courses for employees, in-house or online
