### General information

A placement test is required before joining a course. Participants will be placed in groups according to their language level. These levels, A1 to C2, are defined by the Common European Framework of Reference.

German is spoken in class from the very beginning. All the courses concentrate on the four essential language elements: Speaking, Listening, Reading and Writing. Pronunciation is also trained. Suggestions for classroom topics are welcome.

Students' improvement will be determined by tests on a regular basis. After completing their course, students receive a certificate of participation. Students may also take part in internationally recognized exams.

New students may participate in ongoing courses with available space after taking a placement test. There are specific starting dates for absolute beginners and TestDaF Preparation courses

Lessons do not take place on public holidays. Cancelled lessons will not be made up later.
