

# Spanish courses for people aged 50 and over

Discover Spain like never before

**Do you want to study Spanish, meet people your age and get to know and enjoy the Spanish way of life? With our 50+ program it's never been easier!**

## The Program: Malaga, Salamanca, Tenerife

The aim of this course is to give you the perfect opportunity to practice your Spanish in a relaxed environment and alongside other people over 50, who share your love of Spanish. You will have daily Spanish classes from 9am till 1pm in Tenerife as well as in Salamanca, which combine reading, listening, writing and grammar and focus as much as possible on practical situations, with an emphasis on conversation. Chatting with the teachers whilst having a coffee, strolling through the botanical gardens or along the beach with your classmates are some of the most enjoyable aspects of the course and its informal nature.

As you will be in a class with other mature students, you do not need to worry about sharing lessons with younger students and instead can spend time discussing topics with other, like-minded people. Our interactive method depends completely

on the personal attention the teacher is able to give to you. We determine the composition of the group according to your abilities. There will never be more than 8 people in your class and they will be at the same level of Spanish as you. It is worth noting that this maximum is rarely reached, and the class is usually attended by only 3-4 students. Throughout the course you will receive all the textbooks and other materials you need.

Learning a language is more than simply learning its formal structure. It is also understanding colloquial expressions and becoming familiar with the culture of the people which speak the language. If you wish to participate in the school's cultural classes every evening, this can be arranged, but please be aware that as this class is not part of the 50+ program, the group will be made up of students of all ages.

# Malaga

The city of Malaga, located on the sunny southern coast of Spain, is home to the second largest port in the Mediterranean and enjoys average yearly temperatures of 23°C (73°F), making it a pleasant place to stay all year round. Neither too hot to work nor too cold, it creates the perfect environment in which to study without unnecessary distractions in the classroom. It is a small city with a population of about six hundred thousand local inhabitants, which creates a friendly, warm environment in which students can learn Spanish – and you can always find some locals who are willing to chat with you and help you to practice your Spanish once they realise that you are learning. Relax in one of the many cafes & bars or stroll through the windy cobbled streets of the old town. Salamanca, known as Spain's "Golden City" because of the fact that it is built out of yellow sandstone which glows golden as the sun is going down, is home to the fifth oldest university in the world and a wealth of gorgeous historical buildings that are beautifully carved and constructed. ## Accommodation

For the duration of your course you can choose between:

- Accommodation with a host family
- Shared student apartment
- Private apartments (standard and premium available)

Please bear in mind that shared apartments are likely to be shared with students of different ages, not necessarily others participating in the 50+ program. For this reason, most of our 50+ students choose the Homestay accommodation option and on a half board basis. If you would like information on hotel accommodation, we would be more than happy to advise you, so you can make the best decision and find good value for your money! For more information on these accommodation options please refer to our specific brochures and don't hesitate to get in contact with us for any guidance or questions you may have!

## Excursions

Additionally, we organize excursions every weekend at a reasonable cost, and you are welcome to sign up if you fancy seeing a bit more of Spain! One of the most popular excursions in **Tenerife** is climbing the Teide Volcano, either by foot or in a cable car which reaches an altitude of 3,555m and offers stunning views. In **Salamanca** a trip to Toledo is just one of the several excursions available. Once the capital of Spain from 1519 to 1561, this city is full of history and culture and what better way to appreciate the heritage of Toledo than by visiting its important monuments or the various museums which are included in this excursion.

## Optional activity

Weekend: one-day excursion to a historical landmark, cultural monument or tourist attraction.

Accommodation: student residences or host families (ask about other options).
