

## Description of the school

The "Centro Studi Idea Verona" provides courses of Italian language (lessons/60 minutes) based on dynamic methods and an interactive approach. All teachers are native Italian speakers and certified to teach Italian as a second language.

Several levels of instruction are offered to develop students knowledge of Italian. The school provides intensive and tailor made courses focused on the student's goals, also through the study of the Italian arts and culture (course "Il Bel Canto" for professional singers, fresco courses, geography for travellers, Italian literature and poetry, and more).

An email with details about the needs and goals of the student is welcome and can be very useful to receive more infos about the kind of study programme that the school can propose.

Idea Verona is an official centre PLIDA (Società Dante Alighieri) for the certification of any level of knowledge of the Italian language. The PLIDA project is accredited to the University "La Sapienza" in Rome and to the Italian Ministry of Foreign Affairs.
