LONG-TERM COURSES

inlingua's long term courses enable students to obtain the B2 level which is necessary to apply to French higher education.

inlingua offers an ideal learning structure, with a tutor being assigned to each student to closely monitor their progress and make sure they have all the tools they need to reach their objective. A language level test will be carried out once every term to show the student their progression.

Programme Details

We recommend taking part in the 20h programme to maximise your learning potential. However, the 15h programme is also available for those who wish to have fewer hours.

inlingua also offers a full support service to help students get set up in France offering help with :

- Documents for visa application
- Finding accommodation
- Guarantor service
- Insurance & banking services
- Bus card, SIM card
- Applying to higher education
- And much more

Our partners at higher education schools and universities accepted to examine your application before you have reached the required B2 level. This means you can already have your studies planned out before even arriving in France to learn French. You can choose what you wish to study from a wide range of domains such as:

- Marketing
- Management
- Human Resources
- Fashion
- Tourism
- Computer Science
- Law
- Cuisine
- And much more...

The school you choose will examine your application and will give you an answer within a month. We will ask for students to choose at least three schools to which we will apply in their order of preference.

Once you have received your acceptance letter from the school, it is up to you to reach the B2 level before the beginning of the next school year.

Classes

Our aim is for our students to learn French in a natural way and work on speaking and writing skills through lively and interactive activities.

We emphasize the importance of speaking in real-life situations and working on conversational fluidity.

Parents also participating in our courses have frequently told us their child had got a real taste for the French language after their stay with **inlingua**.

Groups

Through our online level placement test and an oral test with a teacher on the first morning, our teachers will make sure that the students participate in classes appropriate for their level to ensure optimal progress with their French.

Beginners

Our Junior Courses are designed for students who have already studied French at school. It is possible for beginners to sign up, but this must be done on one of our specific dates for beginners.

Class projects

Each week the students work on a class project allowing them to use all they have learned in a real-life situation, for example: setting up a travel blog to talk about their time in La Rochelle, activities that can be done here, giving advice to future travellers.

Students often create their own short films, or write stories in the classic French "bande dessinée" style.

Activities

Thanks to partnerships with local sports structures, our students can take part in a wide range of new activities such as::

Surfing Lessons

With a surf instructor offering classes wherever the waves are that day. The instructor picks up the students and drives them to the best spot of the day to guarantee good learning conditions.

On days where conditions do not allow for surfing classes (rough seas, etc.), the activity is replaced another sports activity (e.g. skateboarding etc.).

Sand Yachting

Our partnership with a local club in La Faute sur Mer allows students to immerse themselves in this unique activity for extended 3-hour trips along the picturesque beach.

As students glide across the sands in 3-wheeled boats, they're treated to not only an adrenaline-packed adventure but also a chance to appreciate the beauty of the coastal scenery.

Wakeboard / Waterskiing

We take our students to Aiguillon sur Mer for waterski, kneeboard, and wakeboard sessions guided by their instructors. After a few sessions there are even ramps available for the more adventurous students!

Students also have access to two obstacle courses to tackle on the water, but be careful not to fall off!

Sailing

With the **inlingua** group leaders, our students go to our partner clubs offering sailing classes. Teamed up in twos on boats, the discover the joys of cruising around the bay of La Rochelle while learning the basics of sailing.

Sailing classes can depend on the tides and will take place when the conditions allow for this.

Stand-up Paddle

Our students go off on adventures with paddleboards. They start by going down a peaceful canal in La Rochelle before taking to the sea once they have mastered the basics.

We organise courses for the students to go through and team races. Sometimes we rent a XXL paddleboard allowing for fun team-building exercises with all the students on the same board.

SAILING / WINDSURFING

 28/06 - 22/08

The sailing club La Rochelle Nautique is located less than 1km from **inlingua** and 200 meters from our student residence. Watersports take place from Monday to Friday between 1:30pm and 4:30pm.

This course is a great opportunity for our students to meet young French people who are members of the club or other teenagers on holiday.

Around 75 students come to sail every week, 95% of whom are French, so it's a great opportunity to meet people and practice the language.

Scan here to see a sample programme online

Sailing Course

The sailing course takes place in catamarans where students are 2 per boat. When possible, each student is teamed up with a French teenager for them to get the best out of their immersive experience.

Students have lunch at the school with everyone else before leaving to go to the club around 1:15pm. The sailing classes then start at 1:30pm.

Students prepare the boats and go sailing with their instructor for 3 hours every afternoon.

It is possible to choose different programmes on different weeks upon booking. However, programmes may not be changed during the course.

Windsurfing Course

Discover the joys of zipping across the water with our windsurfing course offering 3 hours of classes every afternoon (Mon-Fri).

There are different groups according to the participants' levels so don't worry if you're a complete beginner!

The windsurfing classes are quite physically demanding so think about maybe combining this programme with a week of sailing or multiactivity.

It is not possible to change to a different course mid-week and we cannot guarantee a place in a different programme to those confirmed at the time of inscription. This depends on availability at the sailing club.

Students can choose to do different courses on different weeks
(e.g. 1 week Multiactivity, 1 week Sailing, and 1 week Windsurfing)

This must be organised at the time of booking.
