Exploration

An experience to remember, with results that take you forward.

Because of our many years of experience, we have learnt to grow and adapt with our students. Our teachers work with you to discover and improve your strengths and weaknesses. We will help you to set achievable goals and will give you the support you need to reach them.

Why study abroad?

Is there a better way to learn a language than to surround yourself with it?

At Twin, you can learn English in an English-speaking country while also experiencing the culture, the people and the traditions. While you may not have the confidence when you arrive to start a conversation, you soon will with the skills you learn in class.

Cultural integration

While you will learn more about either the UK or Ireland, you will also be able to make friends from around the world in the school – and learn about their cultures too. Our project based learning curriculum ensures you engage with classmates, so that you can share the challenges and rewards of learning together, while also learning more about each other. We don't want you to just sit in class listening to teachers, and with project based learning, you get to be a lot more involved in your learning.

Create memories with rewarding tuition and fun social experiences

Achieve your goals

We treat every student as an individual – and because the learning journey focuses on your specific needs, you can make the best possible progress.

Here's how:

- Regular progress tests to discuss your development and your needs
- Homework options based on your course and interest to help you learn faster
- Access to the Twin e-Learning platform – a large online library of study materials for you to use any time, anywhere – and for up to 3 months after you finish your course
- All study materials available online – better than a book to carry around
- Regular class review so you can see how far you've come and to discuss the topics for next week
- A weekly study programme with different topics each week to help you stay on track to achieve your goals

We understand

Every student has a reason for wanting to improve their English language skills. Whether it is to improve career prospects, travel, or just speak to people from other backgrounds and connect with different cultures, our courses can help you achieve it.

Our commitment

We want to help you make progress

Before you start your studies with us, we assess your current language ability to ensure you are placed in the class that is best suited to your needs. Our teachers want every student to achieve their goals.

Throughout your time at Twin, we will provide regular progress reports and feedback, so you know which areas you need to focus on the most.

Learning English for real life

Our teachers combine Project Based Learning and the communicative teaching method and, wherever possible, modern technologies to help you learn better. Whether you study English in the morning or in the afternoon, we focus on developing your communication, fluency and conversation skills. At the end of your course you should be more confident using English in your real-world, day-to-day life.

It is magnificent to make friends with people from all over Europe. I have a lot of new connections for the future! - Davide, Italy

Project Based Learning

We have a Project Based Learning (PBL) curriculum throughout all our English centres as well as on Twin Live. PBL is a teaching method where students work together to search for answers to real-life questions and present them in a variety of ways including blogs, podcasts, mini exhibitions, etc. It is a great way for you to develop other skills such as problem-solving, collaboration and creativity whilst practising and developing your English.

More tools to help you learn

To help you make better progress, all Twin English language students will have access to our rich online platform – built to support your learning. Twin e-Learning gives you access to libraries and learning resources, progress tests, individual reports and your feedback – all in one place. And you will have access to this great learning tool for up to three months after completing your studies! So, you can continue to practice and improve your English after your course has ended.

A Student Services team that cares

We know how important it is that your educational travel is rewarding. We also want you to have an enjoyable stay when studying at our English centres. Our staff will help you to make the most of your time with us.

They will be there to give advice and guidance and answer any enquiries you might have, from suggestions on places to go and things to see and do to practical issues such as where to get a SIM card or healthcare and travel.

24 hour student support

We are available to offer you 24-hour emergency support and provide a high level of support to students under 18, including a separate induction and weekly welfare tutorials. Students aged 16/17 are generally not supervised outside of class time, but we will still provide guidelines for their safety.
