Our School

We have the pleasure in announcing that from the 1st of June 2010, Interlink has been operating from new premises at The Equinox, 154 Main Road, Sea Point. The Equinox Building, recently completed, is a state-of-the-art architectural landmark in the heart of Sea Point. It is the only building of its kind in Sea Point, is access controlled and has first

Our Volunteer Work Programmes are an exceptional opportunity for anyone wanting to improve their English skills. Working as a volunteer, you will not only learn English in a native environment but you will also collaborate with the local communities and gain valuable work experience.

COMMUNITY PROGRAMME

Masikhule Childcare is a registered non-profit organisation that realised the need for better quality care for babies, toddlers and pre-schoolers in the townships and disadvantaged communities. They offer training in childcare skills to unemployed women, crèche workers and community workers in child development and stimulation. Your volunteering time will be spent at two crèches that take care of about 150 children, aged 7 months to 6 years. All kinds of volunteer support is needed. You could be an assistant teacher in the 4 - 6 year old group, or look after the babies if that is your preference.

CHEETAH CONSERVATION

The Cheetah Conservation programme is situated in the magnificent mountain valleys of Stellenbosch on South Africa's famous wine route. This project aims to help in the conservation of the Cheetah in South Africa by helping out with the day-to-day care of the animals and helping to educate people by encouraging a greater understanding of these magnificent animals. Your work will consist of preparation of food for the cheetahs, cleaning up the feeding and holding enclosures,

as well as hosting the project's guests (which includes introducing them to the cheetahs). Because you will be working with the public, as well as animals, you need to be an outgoing and enthusiastic person with a sense of humour and a genuine compassion for animal welfare.

THE AIDS & HOSPICE SAFE HOUSE PROGRAMME

Founded in 1936, this home was originally created as a care centre for unwed mothers and their infants, and over the years has evolved into an organisation offering shelter for abused, abandoned, HIV- positive, orphaned and terminally ill children. The Aids Orphanage and Hospice provides residential care for up to 40 children

(from birth to 6 years). They ensure that the children's physical and medical needs are attended to. Their objective is to create self-sufficiency and competency for children and families living with HIV and AIDS, in order to reduce the incidence of AIDS-related child abandonment and neglect. Volunteers assist the hospice staff by feeding, stimulating and playing with the children. You also accompany the children to the clinic, or on outings, or assist the teacher in the nursery school with the planned daily activities.
